

The Power of Analytics – A “Hands On” Workshop

Friday, May 6: 10am - noon

Session Overview:

Do you want to become proficient at developing and presenting Analytics for use in your tax department? This session is not a presentation but instead is a workshop in which you will work through an example exercise on your computer with coaching from our presenters. While you may not be proficient after a two-hour session, you will walk away from this session with the confidence that you can learn how to generate world class analytics.

If you have questions or issues in preparing for this session, please contact:

Natalie Haynes – Tax Partner, EY	Natalie.Haynes@ey.com
Rudy Blahnik – Tax Managing Director, EY	Rudy.Blahnik@ey.com
Victoria Lam – Tax Manager, EY	Victoria.Lam@ey.com

If you do not have a computer – come join the fun and we will do our best to accommodate you!

Requirements for this session:

- ▶ Bring your computer to this session with PowerBI installed (free from Microsoft with a Microsoft Office license). PowerBI Desktop is available for free from Microsoft using the following link:
<https://www.microsoft.com/en-us/download/details.aspx?id=58494>
- ▶ Download data files for use in the workshop. Data files can be found on Telestrategies webpage using the following link:

Note, installation may require administrative rights depending on the IT policies of your organization.

Your organization may license Power BI and offer installation via internal software request and installation tools. Please contact your organization's IT department if you have questions.
